

CK77WR Lapel Microphone

Description

The AKG CK 77WR, is a tiny, waterproof lapel microphone. Weighing only 0.4 grams (0.014 oz.) and only 14 mm (0.55 in.) in length, the CK 77 WR is the perfect choice for extremely low profile use where absolute mobility and excellent audio is required.

The dual-diaphragm capsule of the CK 77 WR features a patented protection system and will only accept sound waves while keeping out moisture, perspiration, and salt corrosives. The design also suppresses cable noise and prevents microphone malfunctioning. The CK 77 WR is so small, inconspicuous, and reliable it can be "hidden" within the performer's makeup. Finally, you'll love the sound of these microphones, their improved accessories and compatibility with all popular wireless transmitters.
