

Enforcer EPCX801

8" Co-Axial 20 watt speaker

The EPCX801 is a full range, low distortion, co-axial transducer. Its wide frequency response makes it suitable for background and foreground music applications. The EPCX801 combines one 8" woofer with a 1/2" dome tweeter. The EPCX801 has pre-punched holes for the mounting of a distribution transformer.

SPECIFICATIONS

Diameter	8 1/8"
Magnet Weight	10 oz.
Frequency Response	85-20kHz
Voice Coil Diameter	1"
Impedance	8 Ohms
Sensitivity (1watt / 1 meter)	90dB below 1kHz 95dB 1kHz to 8 kHz 90dB 8kHz to 20kHz
Power Handling	20 watts/RMS
Depth	3"
